

## **Statement of Work: Senior Research Monitoring and Evaluation Consultant**

### **Introduction:**

Ipas is an international non-governmental organization (INGO) which works to assist the Government of Pakistan in achieving the country's commitment towards the Sustainable Development Goal 3 (good health and wellbeing). Founded in 1973, Ipas is a pioneering global organization that developed the manual vacuum aspirator technology for safe uterine evacuation, which is endorsed by the World Health Organization and by various countries including Pakistan. In Pakistan, Ipas seeks to support the government and development partners' efforts to reduce maternal mortality and morbidity associated with complications due to unsafe practices. It collaborates with provincial governments to provide technical assistance and support for strengthening the public and private healthcare system.

- 1. Reports to:** Head of Programs
- 2. Period of Performance:** 9 months
- 3. Location:** Ipas Pakistan Country Office, Islamabad, Hybrid model (at least 3 days each week in-person availability is required)
- 4. Statement of Work:**

Ipas seeks to hire an experienced research, monitoring and evaluation (RM&E) professional for the position of Senior RM&E Consultant. This position will be responsible for planning and implementing the monitoring, evaluation and research activities of Ipas program and individual projects. The position will lead the technical approach, planning and coordination of Ipas' assessments and evaluations, development and dissemination of knowledge products. Success in this role will depend on subject-matter expertise in monitoring and evaluation (frameworks, methodologies, indicators and tools), solid understanding of the Sustainable Development Goals and associated national priority targets, the DAC evaluation criteria, data collection, analysis and reporting. Additionally, strong presentation, representation and communication skills will aid the post-holder in informing and strengthening collaboration with internal and external stakeholders. Strong critical thinking, problem-solving skills and a commitment to continuous learning to strengthen the quality assurance mechanism of the program are essential for satisfactory performance in this position.

### **Primary Responsibilities:**

#### **MONITORING AND EVALUATION:**

- Ensure the implementation of M&E system and databases for the Ipas Pakistan program.
- Attend to the continuous development of databases, business analytics and dashboards and utilizes these to provide reliable and timely insights for programe reflection and decision-making.
- Recommend and implement fit-for-purpose information systems to provide relevant, timely and high-quality routine monitoring data.
- Develop M&E guidance documents and tools.

- Develop and review robust M&E plans, methodologies and frameworks.
- Lead M&E activity budgeting, monitoring of project timelines.
- Lead project reporting to Ipas and external donors, subject to prior review of HoP and CD, in compliance with Ipas and donor policies and requirements.
- Coordinate the preparation of program reports required for submission to government authorities, subject to review of HoP and authorization of CD.
- Provides evidence-informed inputs for the development of high quality funding proposals and concept notes.

#### ACCOUNTABILITY, LEARNING and KNOWLEDGE MANAGEMENT:

- Identify and mitigate risks associated with R&MEAL activities, ensuring compliance with organizational policies and procedures.
- Develop and strengthen community accountability mechanism through a systematic feedback and complaint reporting system
- Foster a culture of learning within the organization, promoting the use of data and evidence to inform decision-making.
- Identify and document best practices, lessons learned, and areas for improvement, and disseminate these findings to relevant stakeholders.
- Develop and implement learning agendas, ensuring that R&MEAL activities address key knowledge gaps and priorities.
- Ensure that R&MEAL findings and recommendations are integrated into program design, implementation, and policy decisions.
- Develop knowledge products for internal and external dissemination in collaboration with and under guidance of the Head of Programs and Country Director (CD).
- Identify and foster opportunities for internal learning and capacity building.
- Collaborate with internal and external stakeholders to identify and address knowledge gaps, and to promote the use of evidence-based practices.

#### PRESENTATION:

- Present monitoring results and advice to donors and other external audiences.
- Collaborate with international, regional and national-level institutions, working groups, and experts on routine monitoring related issues to ensure that Ipas is using the latest technical developments and best practices.
- Represents Ipas at external meetings and conferences, as assigned.

#### Travel:

- An estimated 30% of time may be required for travel to Ipas program activities in Pakistan including in ICT, Punjab, Sindh and KP for the fulfilment of the above-mentioned duties.

#### OTHER TASKS:

- Perform any other duties as assigned by the supervisor or the CD.
- Travel as and when required with supervisor's or CD's approval.

#### PEOPLE MANAGEMENT:

- Manage the team, setting team targets and individual key performance indicators and manage performance to ensure high quality and timely results.
- Enhance team capacity through supervision, feedback, support and professional development opportunities.
